The Cross County Trail is managed by the Fairfax County Park Authority (703-PK-WATCH)

1. **(South)** The walk starts on an asphalt trail on the east side of Hunter Village Road about 130 feet south of Old Keene Mill Road. People coming from a previous section of the CCT should cross Old Keene Mill Road using the crosswalk and walk light on the west side of that intersection with Hunter Village Drive. Cross Hunter Village Drive and turn right to walk down that road 130 feet to the start of the asphalt trail. The asphalt trail changes to a gravel trail after only a few feet and narrows as it enters a wooded area. It will cross a few drainage ditches as it passes through the woods.

(North) the trail crosses a few drainage ditches and exits the woods to intersect with Hunter Village Drive as a short section of asphalt trail. This ends this section of the CCT. To continue onto the next section of the CCT cross Hunter Village Drive and follow that road about 130 feet to the intersection with Old Keene Mill Road. Cross that road using the crosswalk and walk lights. Turn right to walk along the sidewalk and asphalt trail along Old Keene Mill Road to Byron Ave. At the end of the road follow an access road along the side of the ballfields to a parking area in the rear. Turn left at the parking area and walk to the end to reach the start of the CCT as it crosses a side stream next to Accotink Creek.

2. **(South)** The trail enters a grassy area. Hunter Village Drive can be seen on the right.

(North) The trail leaves the grassy area and enters the woods.

3. **(South)** The trail leaves the grassy area and enters the woods. After a short distance it crosses a water main. The trail surface changes to asphalt.

(North) The trail surface changes to gravel as it crosses a water main. A short distance later the trail enters a grassy area. Hunter Village Drive can be seen on the left.

4. **(South)(North)** The trail crosses a stream on columns.

5. **(South)** An asphalt trail intersects from the right. Turn left to follow the current trail.

(North) A trail intersects from the left. Turn right to follow the current trail.

6. **(South)** A trail intersects from the right. Continue straight on the present trail.

(North) A trail intersects from the left. Continue straight on the present trail.

7. **(South)** A trail intersects from the right. Continue straight on the present trail.

(North) A trail intersects from the left. Continue straight on the present trail.

8. **(South)** The trail crosses a stream on a bridge. A few feet later a trail intersects from the right. Turn right to follow the asphalt trail up a steep hill. The trail to the left goes to a stream crossing but no means has been provided to cross Accotink Creek to the trail on the other side.

(North) The trail intersects with another asphalt trail after descending the steep grade. Take the trail to the left. It will cross a stream on a bridge after a few feet.

The trail to the right goes to a stream crossing but no means has been provided to cross Accotink Creek to reach the trail on the other side.

9. **(South)** Homes appear on the left as the slope of the trail gets less severe.

(North) The trail begins a steep descent here.

10. **(South)** The trail reaches Hunter Village Drive. Turn left to walk on the paved shoulder of that road. Cross Rockledge Ct. and turn right to cross Hunter Village Drive in the crosswalk. Turn left to follow the concrete sidewalk on the other side of that road.
(North) Turn right at the intersection with Painted Daisy Drive and cross Hunter Village Drive in the crosswalk. Turn left and cross Rockledge Court. Follow the asphalt shoulder on the side of Hunter Village Drive and turn right onto the asphalt trail to the right at the end of the paved shoulder.
11. **(South)** The concrete sidewalk ends at an asphalt bicycle trail. Turn right to follow the asphalt trail along Hunter Village Drive. Notice a memorial on the right a short distance later.
(North) After passing a memorial on the left the asphalt trail turns to the right to cross Hunter Village Drive. Turn left and follow the concrete sidewalk along Hunter Village Drive.
12. **(South)(North)** Hunter Village Drive parallels the Franconia Springfield Parkway here.
13. **(South)(North)** The trail crosses Painted Daisy Drive.
14. **(South)** The asphalt trail ends. Cross Hunter Village Drive in the crosswalk and take the asphalt trail on the other side to the right. The trail crosses a ramp from the Parkway in the crosswalk. It then crosses Rolling Road in the crosswalk. There is a walk light here. Turn right and follow the asphalt trail along Rolling Road.
(North) Turn left at the traffic light. Cross Rolling Road in the crosswalk. There is a walk light here. Then cross a ramp from the Parkway using the crosswalk. Take the asphalt trail between the Parkway ramp and Hunter Village Drive. At the end of the asphalt trail turn left to cross Hunter Village Drive in the crosswalk. Turn right to follow the asphalt trail along the other side of Hunter Village Drive.
15. **(South)** Look for an opening in the trees on the left. There is no obvious trail sign here. Turn left onto an asphalt trail between the trees and cross Tanworth Drive. Then follow the asphalt trail between the homes and next to the telephone poles.
(North) The trail crosses Tanworth Drive. It ends a few feet on the other side of that road. Turn right and follow the asphalt trail along Rolling Road.
16. **(South)(North)** The trail crosses one appearance of Stream Way.
17. **(South)** The trail crosses another appearance of Stream Way. Turn left and follow the sidewalk a few feet to the intersection with the Fairfax County Parkway. Turn right and follow the asphalt trail along that Parkway.
(North) The asphalt trail ends at the intersection with Stream Way. Turn left to follow a concrete sidewalk a few feet. Turn right to cross Stream Way to an asphalt trail that follows a telephone pole line on the other side of Stream Way.
18. **(South)** This section of the CCT ends at the intersection of Whitlers Creek Drive with the Fairfax County Parkway. To continue onto the next section turn left and cross the Fairfax County Parkway using the crosswalk and the walk light. On the other side of the Parkway continue straight to Hooes Road. Cross Hooes Road and turn right to follow the shoulder of Hooes Road for a block to the asphalt trail on the left.
(North) People coming from the previous section of the CCT should cross the Fairfax County Parkway using the crosswalk and walk light at Whitlers Creek Drive. Turn right and follow the asphalt trail along the Fairfax County Parkway going east.
